

Target Market Determination

- Made by:** Peninsula Energy Limited (ABN 67 062 409 303) of Units 32/33, 22 Railway Road, Subiaco WA 6008 (**Company**).
- Product:** Free options in connection with a security purchase plan to raise A\$10,000,000 and free options to specified participants in a placement of fully paid ordinary shares, each with an exercise price of A\$0.10 and expiry date of 31 March 2025 and each offered under a prospectus dated 10 January 2024 (**Options**).
- Effective Date:** 10 January 2024

This target market determination (**TMD**) has been prepared by the Company in relation to an offer to issue the Options made by the Company under a prospectus dated 10 January 2024 (**Prospectus**). A copy of the Prospectus is available on the Company's website, <https://www.pel.net.au/investor-centre/announcements/>. Capitalised terms used but not defined in this TMD have the meanings given to them in the Prospectus.

The offer will be made under, or accompanied by, a copy of the Prospectus. Any recipient of this TMD should carefully read and consider the Prospectus in full and consult their professional adviser if they have any questions regarding the contents of the Prospectus. Any recipient of this TMD who wants to acquire Options under the offer will need to complete the application form that will be in, or will accompany, the Prospectus. There is no cooling off period in respect of the issue of the Options. This TMD is not a disclosure document for the purposes of the *Corporations Act 2001* (Cth), and therefore has not been lodged, and does not require lodgement, with the Australian Securities and Investments Commission (**ASIC**).

This TMD does not take into account what you currently have, or what you want and need, for your financial future. It is important for you to consider these matters and read the Prospectus before you make an investment decision. The Company is not licensed to provide financial product advice in relation to the Options.

1. Target Market

The table below summarises the overall class of consumers that fall within the target market for Options, based on the product key attributes and the objectives, financial situation and needs that it has been designed to meet.

Factor	Target Market
Investment Objective	The Company expects that an investment in Options will be suitable to eligible Shareholders (the Investors) who wish to increase their exposure to equities in an advanced uranium developer progressing into a long-life uranium operation, which is listed on the Australian Securities Exchange. Particularly, it will be those existing Shareholders of the Company who are registered as holders of Shares at 5:00pm (AWST) on Friday, 17 November 2023 and whose registered address is in Australia, being those Shareholders who are eligible to participate in the Company's security purchase plan to raise \$10,000,000 or who participated in the placement of fully paid ordinary shares announced by the Company on 20 November 2023, to which the issue of Options relates.
Investment Timeframe	The target market of investors will take a short to medium term outlook on their investment. Investors with a short-term outlook for their investment will benefit from an ability to exercise Options and trade the underlying Shares issued on exercise should the Option exercise price of the Options be lower than the trading price of Shares. Investors with a medium-term outlook will benefit from an ability to exercise Options and increase their shareholding and exposure to the potential upside in the Company's Shares into the future. Given the need to

	pay the exercise price in order to acquire Shares, Investors in the target market are in a financial position that is sufficient for them to invest their funds on exercise the Options over a one-year time horizon, during which their ability to liquidate their Options in the Company may be limited by a lack of liquidity in the Options and by the trading price of shares.
Investment Metrics	While the Company does not have an established eligibility framework for investors based on metrics such as age, expected return or volatility, it is expected that the target market of investors will be able to withstand potential fluctuations in the value of their investment. The Options offer no guaranteed income or capital protection.
Risk	The Company considers that an investment in the Options is highly speculative, such that an investment in the Company is not appropriate for an investor who would not be able to bear a loss of some or all of the investment. Investors should also have a sufficient level of financial literacy and resources (either alone or in conjunction with an appropriate adviser) to understand and appreciate the risks of investing in Options as an asset class generally and the more specific risks of investing in an Australian listed advanced uranium developer progressing into a long-life uranium operation.

2. Distribution Conditions

The offer of Options under the Prospectus is being made to those of the Company registered as holding Shares at 5:00pm (AWST) on Friday, 17 November 2023 and whose registered address is in Australia as further specified in the Prospectus or who participated in the placement of Shares announced by the Company on 20 November 2023.

The Prospectus includes jurisdictional conditions on eligibility.

The offers will also be subject to a distribution condition that a copy of the Prospectus and relevant application form will only be made available to Investors before they apply for Options under the relevant offer.

The Company considers that these distribution conditions will ensure that persons who invest in Options fall within the target market in circumstances where personal advice is not being provided to those persons by the Company.

3. Review Triggers

The Options are being offered for a limited offer period set out in the Prospectus, after the conclusion of which the Options will no longer be available for investment by way of issue. It follows that the TMD will only apply in the period between the commencement of the offer of the Options and the issue of the Options shortly after the close of the relevant offer (**Offer Period**).

To allow the Company to determine whether circumstances exist that indicate this TMD is no longer appropriate to the Options and should be reviewed, the following review triggers apply for the Offer Period:

- (a) a new offer of Options that requires preparation of a disclosure document is made after completion of the Offer Period;
- (b) any event or circumstance that would materially change a factor taken into account in making this TMD;
- (c) the existence of a significant dealing of the Options that is not consistent with this TMD. The Company does not consider that an on-sale of the Options on market is a significant dealing;
- (d) ASIC raises concerns with the Company regarding the adequacy of the design or distribution of the Options or this TMD; and

(e) material changes to the regulatory environment that applies to an investment in the Options.

4. Review Period

If a review trigger occurs during the Offer Period, the Company will undertake a review of the TMD in light of the review trigger.

The Company will otherwise complete a review of the TMD immediately prior to the issue of Options under the relevant offer.
