

Company Mission and Values

OUR MISSION

Uranium extraction for a green energy future

OUR VALUES

Our values guide how we think, make decisions, and act at Peninsula.

Integrity	We are committed to be honest, transparent, ethical, and fair and recognise the importance of building trust in relationships with our internal and external stakeholders. We strive to be a good corporate citizen.
People	The health and safety of our employees, contractors, and communities in which we operate is our number one priority. We value differences and show respect for the individual.
Innovation	We encourage new ideas and the adoption of new technologies.
Stewardship	We recognise that our decisions and actions need to lead to responsible value creation that requires us to be mindful of the impacts that our decisions and actions may have on our stakeholders, society, future generations, and the environment.
Teamwork	We encourage teamwork to improve performance and the achievement of common goals by providing our employees with a sense of belonging where they feel safe to share ideas and feel that their contributions are valued.
Simplicity	We achieve efficiency by being responsive and agile through regular and clear communication and elimination of bureaucracy in our decision making.
Accountability	We promote a culture whereby employees are encouraged to make decisions in a responsible manner and give due recognition to employee contributions
